Customer Reviews

I enjoyed this book. It had a neat and nicely convoluted plot, interesting lead and supporting characters and solid world-building. It was also simply fun to read. There's not much more I need. I know other reviewers grumbled about grammar and spelling errors, but I'm a total immersion kind of reader and nothing there was jarring enough to disrupt my enjoyment of the book. Definitely

recommended.

This book jumps around a lot. It is somewhat confusing. The lack of editing is extremely annoying. I do hope the next book was done properly.

Very creative with interesting characters. Robyn has created a complex world with multiple magic systems and has kept the systems consistent and understandable without getting bogged down in details. I found it refreshing and fun, with enough twists and intrigue to keep me reading and wanting more. I have purchased the second book, which I only do for a few ebook series. The only reason I did not give it 5 stars is that it could use better editing. There were several instances of missing words, incorrect word choice, and spelling errors. Not so many that I couldn't get past them, but enough to be mentioned. Great storytelling from an up and coming author.

Thank you for a great read. This book is full of love and life lessons but not so to be boring. I cannot wait to start on book 2 Sisera's Gift. Hopes my hero from book 1, Lyric, will be featured again! Thanks again for a clean read also in order for younger minds!

This is a very nice and interesting story with a great plot. Imagine having Dragon blood! The characters and the storyline are exceptional, this is a great story cannot wait to get into the NEXT book. Great Read

An exciting and dramatic read. Love fantasy genre. Also, I adore not having to skip half the book because of explicit sex content. I admit it. I find them boring and most do not add anything to the storyline.

There are a lot of errors in the book. Wish someone had proof read it, but I can still read it and it's good!

I read Sisera's Gift and thought it was excellent, I think this one exceeded the it. I would still recommend Sisera's Gift . This is just another excellent book in the series. I would highly recommend it.
