# Isis Unveiled: Secrets Of The Ancient Wisdom Tradition, Madame Blavatsky's First Work

## Synopsis

Creating a sensation when it was first published in 1877, the first major work by the young Russian noblewoman who would found the Theosophical Society devoted 1200 pages to the mysteries of ancient and modern science and theology. This new edition abridged by Theosophical scholar Michael Gomes breathes fresh life into this classic of Western esoteric thinking. Stripped of its lengthy quotations from other writers and its repetitious commentary, Isis Unveiled is revealed to be a clear and readable exploration of the universal truths of the Ancient Wisdom Tradition by one of the most remarkable women of modern times.

One of the most remarkable productions of the century. --New York Herald, 1877  
It must be acknowledged that she is a remarkable woman, who has read more, seen more, and thought more than most wise men. Her work abounds in quotations from a dozen different languages, not for the purpose of a vain display of erudition, but to substantiate her peculiar views . . . her pages are garnished with footnotes establishing, as her authorities, some of the profoundest writers of the past. To a large class of readers, this remarkable work will prove of absorbing interest . . . demands the earnest attention of thinkers, and merits an analytic reading. --Boston Evening Transcript, 1877  
The appearance of erudition is stupendous. Reference to and quotations from the most unknown and obscure writers in all languages abound, interspersed with allusions to writers of the highest repute, which have evidently been more than skimmed through. --N. Y. Independent, 1877

WOW. TOTALLY BRAND NEW,, arrived in 2 days, and its vol 1&2 together. wasn't sure based on the listing,so far very interesting, many questions boggling my mind are slowly coming into fruition, im not a reader at all,(unless a script for a movie tv show or commercial audition, i have only read 4 books cover to cover my entire life, aside from school text books and required reading(which i skimmed through) of course.and im 37 years old,i didnt realize how many good books i was missing

A Must read for those who are intrigued by this mystical Goddess and understanding the ideology behind the name of Isis.

the text size in this book is very very small

This book was one of Albert Einsteins favorites. You will understand why when you read it. It amazes the mind. Makes you question everything you thought you knew. I couldn't put it down.

Great book; understood it was in Einstein's library. Arrived promptly. Great overview of all religious/other beliefs.

This is really deep and interesting. A little difficult to read, but a must for seekers.

a very good book I have not finished it yet but I will AADeL

Recall this tome preceded the Secret Doctrine. She covers all the issues with respect to these teachings and shows how our knowledge has been successfully watered down ever since. This was 1875!
