Pathfinder Pawns: Inner Sea Pawn Box

Synopsis

Bring the world of the Pathfinder Campaign Setting to your game table with the Inner Sea Pawn Box. With more than a hundred characters straight from the Inner Sea region, Game Masters and Pathfinder RPG players alike will find the perfect pawns to represent their player characters and noteworthy NPCs. Including both major characters from the Pathfinder world and members of iconic organizations like the merciless Hellknights and daring members of the Pathfinder Society this set provides all the Pathfinder Pawns you need to truly bring the Pathfinder Campaign Setting to life. Price includes VAT. The colorful characters of the Pathfinder Roleplaying Game's Inner Sea setting come alive on your tabletop with this box-busting collection of more than 200 character pawns for use with the Pathfinder Roleplaying Game or any tabletop fantasy RPG! Printed on sturdy cardstock, each pawn contains a beautiful full-color image of a specialized character from one of the diverse nations and cultures of the Inner Sea region. Each cardboard pawn slots into a size-appropriate plastic base, making it easy to mix with traditional metal or plastic miniatures. With multiple pawns for common character types and over 200 distinct character images, the Inner Sea Pawn Box is the best way to ensure you've got the perfect foes to make your Pathfinder campaign deadlier than ever!

Another big pawns box from Paizo, same great quality and quantity of pawns as previous releases. This is probably mainly a good resource for those who are running games as dungeon masters, as the pawns are best for NPCs and enemies. Those who are running parties through Adventure Path

content or incorporating established elements and factions of Golarion will probably be very happy with this box. A major downside is that most of the characters depicted are humans, and not only that, since this is an 'army builder' type pawns box you will be getting several of the same pawns to use as enemies, so there's not much here in terms of variety of pawns PCs might want to use to represent their characters. If you're seeking a bit more variation you'd be better off first purchasing the NPC Codex Pawns Box. Some things to note - this set does contain all the Paizo "iconics" of classes from the Advanced Player's Guide, Ultimate Combat, Ultimate Magic, and the Advanced Class Guide, so if you're looking for those, you've come to the right place. It also includes pawns of the pre-generated characters for We Be Goblins, which is neat. Overall this was a solid 4 stars for me, as the variety felt a bit lacking. Definitely purchase an NPC Codex Box before this if you're more interested in building up a collection of more varied pawns, but this is worth the eventual purchase. Looking forward to the Monster Codex pawns now!

A great pawn box with TONS of figs for your campaigns. YOU can use them for all types of campaigns not just Skull and Shackles or pirate themed ones.

While the source artwork for these pawns is fantastic, the actual print is low saturation and low contrast. Placed on the table, the majority of the figures resemble washed out silhouettes. On the plus side, the cardboard is thick and sturdy, and I believe these will prove durable for years of play. I've crafted higher quality pawns similar to these in the past, but it was a fair amount of work. This is a reasonably priced purchase if you're looking to quickly muster a paper army.

As I play Pathfinder anywhere from once or twice a week; I've found me and my group really enjoying these pawns. Easy to store, covers so many creatures and tends to get them to open up more on role playing. Instead of I attack, it's I thrust my sword through the eye stalk.

Containing several hundred lavishly illustrated friends and foes for any RPG this pawn box is an absolute must for DMs and players alike.

Great assortment of pawns, including Golarion specific prestige classes like Eagle Knights, Aspis Consortium, Hellknights, etc.

Product arrived as described and in good time.

4 out of 5 - would be 5 if they included more bases.
