## Synopsis

The Camel Club exists at the fringes of Washington, D.C., has no power, and consists solely of four eccentric members whom society has forgotten. One man leads this ragtag crew. He has no known past and has taken the name "Oliver Stone." Day and night, Stone and his friends study wild conspiracy theories and the machinations of government, hoping to discover some truth that will hold America's leaders accountable to its citizens. Yet never in Stone's wildest nightmares could he imagine the conspiracy they are about to uncover, in... **THE CAMEL CLUB:** After witnessing a shocking murder, the Club is slammed headfirst into a plot that threatens the very security of the nation, full of stunning twists, high-stakes intrigue, and global gamesmanship rocketing to the Oval Office and beyond. It's an event that may well be the catalyst for a long-threatened Armageddon, and all that stands in the way of this apocalypse are these unexpected heroes. **THE COLLECTORS:** Headquartered in a caretaker's cottage in Mt. Zion Cemetery, Oliver Stone discovers that someone is selling America to its enemies-one classified secret at a time. When Annabelle Conroy, the greatest con artist of her generation, struts onto the scene in high-heeled boots, the Camel Club gets a sexy new edge as the investigation of two chilling murders hurtles them into a world of espionage that threatens to bring America to its knees. **STONE COLD:** One by one, men from Stone's shadowy past are turning up dead. To almost all who know him, Harry Finn is a doting father and loving husband who uses his skills behind the scenes to keep our nation safe. But the other face of Harry Finn is that of an unstoppable killer with his sights on Stone. As the Camel Club and Annabelle fight for their lives, the twists and turns whipsaw, leading to a finale that is as explosive as it is shattering.

## Customer Reviews

Praise for THE CAMEL CLUB: "Bestselling writer David Baldacci delivers another political thriller, this one involving the Secret Service, corrupt government leaders, and terrorism. The Camel Club consists of four eccentric friends who meet regularly to discuss their theories of conspiracy. Upon witnessing the murder of a government official, they are thrown into real-life danger and must partner with Secret Service Agent Alex Ford to root out the criminals before the United States takes action against an innocent country. Narrator James Naughton's steady, controlled delivery communicates the gravity of the situation. His portrayal of Camel Club leader "Oliver Stone" is convincing as a man whose past has made him weary and mistrusting." [AudioFile Magazine](#)

Praise for STONE COLD "The author brings back Oliver Stone, with his old friends and older enemies. Baldacci's adept character development coupled with deft narration from Ron McLarty makes for an enjoyable listening experience. Once again, Baldacci creates unique parallel stories that evolve and eventually intertwine. The expert McLarty gives clear and recognizable voices to all the characters....Hidden secrets, political espionage, and personal trust all clash in this fast-paced story." [AudioFile Magazine](#)

Gave this as a birthday gift as they have a hour's drive every morning. They love the series!

An excellent read. Best one of the group!

David Baldacci has many books out and I happen to like these stories about Oliver Stone. He's a former FBI agent who had a bad experience and dropped out of everything. Now he lives in a tent short distance from the Mall in Washington DC and belongs to a group of other odd balls called

"The Camel Club". They discuss stuff and are loners themselves but they are employed in odd jobs. Well wouldn't you know it Stone gets called in to help somebody and the adventure begins for him and his buddies.

A friend told me about the Camel Club series and he was right! The first book was loaded with details and since I was listening on CD, I found myself replaying so I wouldn't miss important details about key characters. You have to get the key characters straight in the first book and these books build upon each other. It was so worth it. David Baldacci is a very talented author and the plots in this series are intriguing.

I am a huge Baldacci fan and an equally huge audio fan. The Camel Club series are all great books, these three have very good readers particularly Ron McLarty. If you want some dependable enjoyment this set will hit the spot.

If you like Baldacci, you will enjoy this series. Love the audio function cause I can listen on my way to and from work. I am hooked on audio books!

I have been reading Mr. Baldacci's first book. I was steered to his books by his uncle "Bob". I was hooked. Each book ranks higher, even though some are not as good as others, but always full of entertainment. The Camel Club I found to be in the plateau just before excellent. These books are like the serials that would entertain young and old either in movies or TV. Excellent in every way as to plots, characters and environment. Kuddos to Mr. Baldacci.

These books are a lot of fun, complex plots, contemporary characters and criticism of our government past, present and future. I listened while driving and each hour on the road felt like 20 minutes. Perfect for audio consumption.
