Misti Kenison is a web/graphic designer and owner of MK Design. As a mom, she believes strongly in encouraging literacy at a very young age, and hopes that this series will be a great tool for other parents to do so as well. She lives in Little Rock, Arkansas, with her husband and two children.

A great little primer on American history! I have already purchased this book for a few friends having babies and I can't wait for the additional books Misti Kenison is writing to expand their collections. I know that an Abe Lincoln book will be published shortly, but I hope she continues in this genre!

'Cheer Up, Ben Franklin!' by Misti Kenison is a board book for young readers with elements of American history included. Poor Ben Franklin. He has no one to fly his kite with. Paul Revere is out riding his horse. Sam Adams is having a tea party. He decides to go to Independence Hall. Will he

find his friends there? My first thought on reading this was that the timeline was all messed up, but the book includes a handy timeline so that you can discover when Paul Revere rode and when the Declaration of Independence was signed. It's a really cute board book and I loved the easy to view illustrations. I received a review copy of this ebook from Sourcebooks Jabberwocky and NetGalley in exchange for an honest review. Thank you for allowing me to review this ebook.

This book is amazing! The colors are so vivid, very attractive. It covers so many historical figures in one book. What a great start for young children to meet the people who have done so much for our country. I recommend this for every family's children's library and town libraries!

I absolutely love this book! It is perfect for young readers to get a glimpse into our nation's history. The pictures are vivid and simple, but include important details (such as the way the flag looked, etc). It lends to great discussion on what certain vocabulary words mean, as well as has a nifty timeline at the end with more information on each of the historical figures mentioned in the book. The quality of the board book is excellent. I am a K-12 librarian, and I cannot wait to share this book with some of our young readers and do some whole group research! I will definitely be purchasing copies of her future books to add to our library collection.

I bought this for my 8 month old (and myself...) and it is quite honestly his fav book out of dozens we read! I love the simple illustrations and it's so fun to actually be reading about historical figures to him. Love these books, can't wait for more in the series.
