This is my 2nd purchase of the same map. It is a large easy to use paper road map, printed only on one side (which I like because I like to write on my maps during the trip, and I don't have to worry about ink bleeding through and damaging what is printed on reverse side). The map has a laminated cardstock outside cover, which protects it when folded properly. However, it causes cuts in the map when you try to fold it 'open' for viewing specific areas. I tried to pull the cover off my first map, but it started tearing the map. I highlighted each road we took during the trip, using a different color for different days. I made trip notes on the map, adding places we visited, and dates. I ordered the 2nd map so I can transfer my annotations carefully & more artfully to the new map. I am thinking of making a wall hanging and adding a scattering of travel pictures over untraveled areas. I think it is something we would enjoy looking at to reminisce.

Essential to purchase, with or without a GPS. We drove all over GB with this map and it was a lifesaver. We had GPS and still needed this map several times a week. Don't sacrifice quality for

price by purchasing a cheaper map and don't drive in the UK without it!

OK for trip planning only. Needs more detail so it's not great as a roadmap. However, if you have a GPS, then it's a good supplemental tool to determine what town you should be heading towards as Britain, unlike the U.S., doesn't, mark their roads North, South, East, or West. So if you can't see the sun, which is just about every day, you have no idea which direction you are heading.

I love this map. It's huge, but folds up great. It's laminated so it won't rip easily. It's going to be so handy when we go to Europe next summer.

Used it while driving as a supplement to our GPS. Glad we had it as several times the GPS took us through construction and we had to find our own way. Also nice to "see the whole picture" which you don't get with GPS.

This is a good basic map. I haven't driven around Britain, but it seems to show the main roads, but not the "back roads"--surely there are some? I like the durable cover.

A good overview map.

Very useful, bought before my trip so I was better prepared to finalize my travel plan.
