About the Author Mary Scannell (Tempe, Arizona) is the founder of bizteamtools.com, and is co-author of the [The Big Book of Team-Motivating Games](#).

this book has a number of "ice breaker" and other "games" or game like activities. few of them have any special relationship to conflict resolution. the title is misleading but it is ok as a book of ice breakers and other brief activities related to communication and cooperation...

This has been a great asset to a course I have been teaching this semester. I've found these shorter activities gets the class on their feet and doing something to help break up some of the longer lectures. Some of the activities match the course concepts very well. Other times, they simply give the class opportunities to work together in smaller, less grade-threatening situations.

Kinda dumb.

Nearly every technique in this book is doable and measurable. Recognizing that people have diverse...often conflicting...ways of solving problems, Scannell presents short, interactive games to identify and resolve challenges...and they work. The explanatory text for each game is especially helpful...straightforward, not preachy.

This is vital more so for teams who really want healthy teams. There will be conflict. I love this book gives a creative energy of how to effectively address conflicts.

Excellent activity book with various activities/games that produce thought provoking dialogue and discussion!!

Easy and fun way to teach concepts!

This book is a useful tool when looking for activities that support conflict resolution concepts. . People like interaction when learning new concepts.and this books fulfills that requirement.
