Anything Goes: An Advanced Reader Of Modern Chinese (The Princeton Language Program: Modern Chinese)

Synopsis

Suitable for students with three or more years of modern Chinese language instruction, *Anything Goes* uses advanced materials to reinforce language skills and increase understanding of contemporary China in one semester. This fully revised edition provides learners with a deeper fluency in high-level Chinese vocabulary and grammar, and includes newspaper articles and critiques as well as other primary source documents, such as political speeches and legal documents. The textbook covers topics that are essential to understanding contemporary Chinese society, including changing attitudes toward women and marriage, the one-child policy, economic development, China's ethnic minorities, and debates surrounding Taiwan and Hong Kong. The lessons intentionally investigate thought-provoking and sometimes controversial issues in order to spark lively classroom discussions. This new edition incorporates suggestions and improvements from years of student and teacher feedback. With an improved, more user-friendly format, *Anything Goes* juxtaposes text and vocabulary on adjacent pages. Grammar explanations and exercises have also been thoroughly updated. **Advanced-level Chinese language textbook** Includes newspaper articles and primary source documents Thought-provoking topics on contemporary Chinese society Updated grammar explanations and exercises New user-friendly format

Customer Reviews

Chih-p'ing Chou is professor of East Asian studies at Princeton University and director of the university's Chinese language and Princeton in Beijing programs. Hua-Hui Wei is a former lecturer in the East Asian Studies Department at Princeton University. Kun An is assistant professor of Chinese language at Randolph College. Wei Wang is a lecturer in the Department of Asian and Near Eastern Languages and Literatures at Washington University in St. Louis.

I am currently using this book in my fourth-year Chinese class at university. I have not studied Chinese formally before this, since I have Chinese parents, but I found the comprehensive wordlists that accompany each text to make them fully understandable and readable for me, which is otherwise frustrating (nobody likes Chinese dictionaries). The texts are generally drawn from newspapers or other similar sources, so you are reading real Chinese and not something composed for the book. I don't imagine there are many people buying this who don't have to for their class, but rest assured it's a useful and well written book. Includes both Simplified and Traditional characters.

It shipped very quickly, and its very affordable compared to those sold at my school's bookstore. The lines between the text is larger and allows for notes or pronunciation guidance. The stories are relevant and interesting. Great book to learn Chinese with.

Beware of the kindle edition. It isn't a regular kindle book - can't enlarge text size, so it's useless on smartphones (it's like reading a scanned PDF - you have to zoom in and manually scroll around the page just to read it). Text look crappy and pixelated - they didn't even bother scanning it properly. Dictionary lookup on chinese characters doesn't work (even though I have a chinese-english dictionary installed which works fine on other Chinese ebooks) - the OCR seems to have not been done correctly. Doesn't support the Windows 8 kindle app, or the Kindle Touch. Want a refund, but I rented it and it doesn't even let me return the book for a refund.

There is really nothing wrong with text, only that this kindle version doesn't work on android phones. That really limits use to ipad and computer...in which case the hard bound copy is equally as convenient. Moreover, this book takes forever to download? Not sure what the hiccup with kindle is for pc, mac, and ipad, but it took a whole day to get this thing on my device? Either that or TimeWarner just stinks as an ISP. Either way, this is a good text for remedial learners, probably not challenging enough for those abroad or living with native language speakers.

Good condition

I simply don't like this book. just personal opinion

Works extremely well Super fast shipping! you won't be disappointed Happy with this product and the service given. great price and item Delivery date in time as expected...

Scanned copy of original book. I was looking for an ebook so I could use the kindle dictionary to look up words while studying. This is only scanned images and doesn't allow word look up, making it much less useful to study.
