Customer Reviews

This cookbook is the best!! I'm one of those cooks that loves recipes, but gets easily intimidated by new equipment in my kitchen. I'm admittedly not too experienced with electric pressure cookers, but this book has me feeling great about cooking with one now. I enjoyed the variety of recipes, and what seems to be an easy preparation and clean up. I'm looking forward to continuing to cook healthy meals. This is a great book for everyone who has a pressure cooker.

This cookbook will be my go to for anything Instant Pot. So many awesome recipes, you'll never run out of choices. My only ding would be lack of pictures, but I'm not taking off a star, because this cookbook is that awesome!

I have not tried all the recipes in this book but have gone through them and I think this cookbook has some great collection of instant pot recipes. There could have been images of the recipes making it more appealing to the reader. The instructions and all are very easy to follow and there are even some new dishes in here.

I've had great fun with this. Food just tastes so much better in it - and my split pea soup was soooo easy - just throw everything in - walk away for 8 minutes - then let it sit for 15 and you'll get the best soup!! No worrying about things sticking to the bottom of the pan.

I have tried several of the recipes in this book and they have all been easy to make. I think my favorite is the mashed potato recipe. You put everything into the Instant Pot at once. All you have to do is mash the potatoes at the end. It is so easy!

Good information on the Instant Pot. The recipes I have tried have been great. The layout of the recipes is excellent, allowing for easy reference during cooking. The timing charts are very useful, and I think better than the ones that came with the IP.

We wanted some additional inspiration and ideas for our instant pot and this hit the mark. It's not a huge book but there are a whole range of recipes covering all courses and meal types. The book is clearly written and easy to understand!

This book has a good variety of recipes. I've tried a couple and they were very good. I'm glad I got it because it enables me to get more use from my pressure cooker.
