Kazuhiro Hara is the artist behind both the Log Horizon light novel series and its manga adaptation.

Mamare Touno is an author best known for his sci-fi light novel series, Log Horizon.

The series so far is excellently written. It's a very good read. If I hadn't already watched the anime a dozen times, I'd finish the books too, but I won't. This will be my last book. I read the light novels to get a different perspective or some extra content. In the light novel you can go into greater depth about what the characters are thinking and feeling, for example. However, if you've watched Log Horizon anime, there's no reason to read the books. You don't really get anything you wouldn't get from watching the anime. Unless you really like book form or anime form, I don't see a need to both read this light novel AND watch the anime. Even though the light novel was really well done, I got bored because not much was different than what I'd already seen in the anime.

Note: This the NOVEL not the manga. The series continues to be excellent. This time we have a split plot with some heroes at a training camp for the members rescued in the previous novel and some of the heroes meeting the "people of the land" for an old English-type gathering of lords. The story focuses a lot on character dialogue and mystery in this volume but there's still some action/suspense in the dungeon adventures of the younger members; I was not too fond of this though, a lot of it came off as cliché and angsty in how some of these younger folks were portrayed and I found it irritating. Thankfully this is not the entire novel. Some excellent world building happens as we learn about the rest of the continent from different characters. In terms of the anime, this is about 3/4ths of the 1st season [if i recall correctly].

If you have seen the anime, you'll know the story, but I always like to get the books since they're always a little different. While I can't 100% remember if there WERE any subtle differences, I probably wouldn't tell you anyway. Good books, good series in general. I'm pretty excited to get to the final volume.

I would definitely tell any fan of RPG anime to check out Log Horizon, probably before Sword Art Online. Touno-sensei's writing does contain a lot of exposition, but the writing flows so well and the characters are so great it's not boring at all. In fact, the surprises come so quickly in this book with the changes of pace that it's just fun reading.

Log Horizon is a very well-written series with interesting characters and a mysterious world to explore. It's similar to Sword Art Online, but with a richer world history and more attention to detail on character development and world-building. A great read for any fan of fantasy, video games, or the anime series based off of it.

A great book, it matches the anime series pretty well and gives a little more depth to the story as a whole since it lets your imagination take things differently. If you havnt or dont plan to watch the anime, this book is great. Worth the read whether you've already seen the anime or not.

You will really enjoy this series! Cant say enough good things about Log Horizon!

Really liked how it was handled. There are some word differences from the anime compared to here but other than that I really like it
