TIM TREADSTONE aka BAKED ALASKA is an internet celebrity, entertainer, and performance artist hailing from Anchorage, Alaska. He currently lives in Los Angeles where he's worked as a social media strategist for various highly-esteemed media outlets such as BuzzFeed and Anime Right News. Amidst endless controversy he has risen to become a prominent figure in the Alt-Right and New Right political movements.

I was not disappointed, this was a very interesting read.

Very funny. Baked Alaska captures the weird zeitgeist of our current year. Recommended read no matter where you fall on the political spectrum.

:D

Meme Magic Secrets Revealed is perhaps one of the most overlooked gems within 21st century literature. Baked Alaska meticulously provides a vivacious commentary on "namefags" and their role within modern politics by describing the struggles of Baked Alaska's life and how he was able to overcome and thrive as a political commentator. It is highly recommended that anyone who truly wishes to understand how the Clinton campaign was "checkmated" by the Trump administration read this book!

As someone who followed the 2016 election very closely, I found this book to be very insightful, while also bringing comedy to the table. A must buy for anyone who finds interest in the political, the comical, or memes. And, who doesn't enjoy memes?

the first thing I noticed was the large size of this book. I had planned on reading it eventually but after flipping through it and catching glimpses of the part I decided to read the first few pages. Before I knew it I was halfway through this book and I couldn't put it down. It is Much more than what I expected. Is a fantastical surreal story that does an job of describing the pre and post election period. And he is obviously layered with depth and meaning. There were so many jokes and insider nods. know I'll have to read it at least a few more times to catch even more of its hidden secrets. Either Baked Alaska is more than he lets on or this is the work of a genius savant.

I'm just here to counter all the bad reviews from social justice losers that've never even read the book. Based Alaska is hilarious and I cannot wait to purchase this.
