Waddle!: A Scanimation Picture Book

Synopsis

It's Waddle! And it's in color. And boy, is it irresistible. In the same way that kids can't read Gallop! without wanting to gallop around the room, Waddle!, an animals-in-motion Scanimation book, will inspire prancing, hopping, stomping, and scampering. And did we mention color? Created by the optical genius behind the phenomenal #1 and #2 New York Times bestselling children's books, Gallop! and Swing!, Waddle! adds touches of color to the images and integrates it into the text. That prancing pig is pink, the leaping dolphin is blue, the slithering snake yellow. The Scanimation itself is also more lifelike, as the author continues to refine his patented Scanimation process, resulting in a more fluid, realistic motion. Nothing else compares. Waddle! teaches color and movement. Its language is a joy, the rhymes inspiring, the animals full of life. And one more thing: Waddle! has a surprise ending. Something else to grab the reader's attention—literally.

Book Information

Series: Scanimation

Hardcover: 12 pages

Publisher: Workman Publishing Company; Brdbk edition (October 1, 2009)

Language: English

ISBN-10: 0761151125

ISBN-13: 978-0761151128

Product Dimensions: 5.2 x 1.1 x 7.4 inches

Shipping Weight: 12.8 ounces (View shipping rates and policies)

Average Customer Review: 4.6 out of 5 stars 126 customer reviews

Best Sellers Rank: #84,705 in Books (See Top 100 in Books) #4 in [Books > Arts &](#)

[Photography > Photography & Video > Children](#) #4266 in [Books > Children's Books > Animals](#)

Age Range: 4 - 8 years

Grade Level: Preschool - 3

Customer Reviews

PreSchool-K • Seder's "scanimation" books utilize his recognizable gimmick to varied effect. As readers turn each page, the animal in the stripy circle seems to prance, slither, hop, or flap. The text is predictably simple: "Can you waddle like a penguin?/slip-slide-swoop!/Can you hop like a frog?/flip-flop-floop!" The book culminates with, "If you can waddle,/stomp or hop,/you'd better run! The alligator's/gonna/getcha!" Unfortunately, there is no logic in going from being able to move like all the animals to being attacked by the alligator. However, all issues aside, the moving

animals and the encouragement of audience participation is sure to appeal to the intended audience, who probably won't care about the lackluster text. Ultimately, this is a one-trick pony. © Amy Lilien-Harper, The Ferguson Library, Stamford, CT Copyright © Reed Business Information, a division of Reed Elsevier Inc. All rights reserved.

Rufus Butler Seder is the inventor of Lifetiles, glass-tiled murals that appear to come to life when the viewer walks by; he's installed them at the Smithsonian, Sea World, Union Station, and other museums, aquariums, train stations, and ocean liners around the world. He is also the founder of EyeThink, Inc., a company that develops and produces a line of toys and gifts using the technologies he's invented. Mr. Seder lives in Boston.

This book is awesome, and it is one of my son's favorite books. He laughs at the picture movement. We use it to learn the names of the animals in the book.

I have now bought at least 10 of these Scanimation books because their animated pictures are absolutely wonderful for children of all ages. It is a board book that is truly interactive. This particular one covers birds and I bought it for a shower present for someone who was expecting a baby boy. They will keep a toddler amused for hours and they cover many topics: animals, sports, comics and movies! Each book has exceptional illustrations in a format that allows the viewer to see captioned moving pictures with the turn of a page! And this one covers the adventures of birds. I bought this one for a first birthday present for twins but it has become the 7 year old's favorite book recently and adults have commented on what a great keepsake it is, so I guess anyone would find something great about it. I think Rufus Butler Seder is a genius!

These books are fun. Some of the pages are a little too dark though

Book was as described. My daughter loves to movement of the animals. Delightful. Arrived on time.

I was very excited to buy this book for our six month old grandson. Pictures that move, with great action verbs, and descriptive movements for the animals. When our book arrived the bear page did not work, but with a number of gentle opening and closings and now with a popping sound, the page works fine. Having read other reviews, it may be that as he grows older he will be able to see the scanimations better, however, board picture books should be for our youngest readers. I agree

with another reviewer that it would be nice to more easily see the scanimations, but I'm not sure that that is possible. And, what's with the last scanimation, the alligator that will get you? It is the action of an alligator, but I just wished for something different.UPDATE: As our grandson nears a year it appears that he can see the pictures better and the wonderful language on the pages is so much fun. So my recommendation is to wait until about a year and then I think most children will enjoy the scanimation books.

A very fascinating book for any age. Older ones will focus on how it works while younger ones just enjoy the movement. Best thing--no batteries!! Constructed so sturdy even young toddlers can handle it without damaging it(no chewing, of course!) I have 2 of Seder's scanimation books & grandkids frequently choose them. I own many children's books, but this one appeals to the broadest age of audiences.

Good book for my grand daughter.

Loved the book! I am sure my grand-daughter will love it! I enjoyed looking at it myself, and even showed my co-workers. They had never seen the Rufus Butler Seder books. I had bought them before for my grand-son when he was younger.
