Customer Reviews

I passed! However I think that had more to do with common sense than this book. I got the kindle version and I found the layout good and the questions did come up but one some of them. Many questions were not covered at all by this. I expected all or at least a higher percentage of questions to be covered. The test is mainly common sense but there were several questions that should have been covered by this book that were not. Good luck.

Terrible book. Did not help me at all. Too many random questions. needs to be focused and have more signs.
