Building Sheds

Synopsis

Building upon the success of earlier versions, which sold more than 250,000 copies, *Building Sheds* by Joseph Truini provides all the expert advice needed to construct a shed from start to finish. With broad appeal, *Building Sheds*, which includes nearly 500 photos and illustrations, offers a range of options to help do-it-yourselfers complete one of the most popular outdoor building projects. The book features instructions and plans for five different styles of sheds: timber-frame garden board-and-batten low-maintenance storage cedar shingle post-and-beam. A no-nonsense guide, *Building Sheds* details every step from designing a shed to match individual storage needs to selecting materials. Author Joseph Truini also offers advice on constructing foundations, installing windows and doors, and building stairways and ramps. Detailed working drawings enable do-it-yourselfers to build the sheds outlined in the book as well as to customize a project by mixing and matching techniques.

Book Information

Paperback: 224 pages

Publisher: Taunton Press (May 3, 2016)

Customer Reviews

"Lots of handy tips, exceptionally clear illustrations, and photography make this a valuable resource if you're keen to build that special retreat." (Good Woodworking)

Before writing about home improvement, Joseph Truini worked as a remodeling contractor, cabinet maker, and union carpenter. He has written extensively for magazines like *Today's Homeowner*, *This Old House*, and *Popular Mechanics*. He also is the author of *Building a Shed*

(Taunton Press, 2003, 2009, 2015) and Installing Floors (Taunton Press, 2010).

Fast shipping and just as described!

Good book.

The content seems good thus far, but some of the text in the Kindle edition is gray instead of black. For the price, this book should be properly formatted.

Good book for covering the basic techniques used in general framing as well as source material for some ideas

What a great book on the subject of building a shed. Easy to read and understand, a real hands down winner on the subject. Fast delivery.

Wonderful, step by step directions with numerous tips the pro's use. Very informative wether you are a do it yourself or will be hiring a contractor.

What a beautifully done book! The text and the photographs are brilliant. It is thorough and genuinely informative. Joseph Truini's got another winner! No one does it better! Love the Cape Cod Shed with the Blue door!

Really like the 4x4 sheds design!
