Customer Reviews

This was a great quick read. I love Jane and how she tries so hard to do what she thinks is right. Thane and Jane are wonderful, but I think Thane stole the show in this book. I would have given this book a five star rating, but the author really needed better proof reading. I have read several of

books by this author and never seen mistakes like this in her writing before. At several points in the book she had used the wrong names, Ethan when it should have been Will, and granddaughter when she meant daughter. I knew what was correct, but shame on whoever was supposed to correct these errors. I try not to let these types of errors change my rating, but these were obvious mistakes and many people will give very poor ratings errors such as this. I hope the author learns from this.

it was worth the wait just to see what happened and i don't know if it's the end of the series, but it was ok.. some twists and turns, times when you thought everything was lost, happiness.. she could write another book to continue or just leave it as is and it would be good.. she did a great job of expanding the world she had created in the previous 2 books with the addition of some new characters and then revisiting some old ones.. the only problem was a the whole penelope person, 1 part said granddaughter and another said daughter..

I really enjoyed reading this book, just not as much as the other books in the series. The ending was fine, but I think that she could have came up with a better one than the one we were given. I enjoyed the series overall enough that I would consider reading other books by this author, however I do hope that she is able to find a better editor as there were many mistakes throughout the book which caused me to give this book a 4 star rating instead of a 5 star rating.

I did not want the series to end! I really hope she decides to write more. Very good book. It seems like the heroin was really just starting to fully develop and while some things are predictable, there were some good surprises.

I've waited with baited breath for this book to come out! It seemed like it took forever. I read The Chosen Ones over and over to get my fix until The Forsaken Ones came out. Now I can hardly wait for the next one. Please Lori, hurry and write the next one!

This series is so underrated. This book was just...awesome as The Chosen Ones. Great action, good drama and realistic romance. Totally worth your time.

Soooo much took place in this book that I am tempted to write as spoiler. I was ecstatic to see that Jane and Thane were doing something constructive. Jane is still finding herself. It is sad that this

was the end. I hope Lori does another book for Jane. I need to know what happens in the future. Overall this was a fantastic book and series.

Not sure i like how the author summed up everything in the last chapter as if she was bored with the story and wanted to move on to other things. It was a good story i just think it leaves you with too many unanswered questions.
