This is a coloring book of mostly female vampires. There are a few males but the focus is generally on the women. The vampires range from elegant to rather scantily clad pin-up style vampires and the designs range from romantic to battles scenes. Some of the designs have a hint of manga style but I would not characterize the book as that. The designs are extremely detailed and have many intricate and small areas to color. The designs have a beautiful and flowing style with areas to provide shading and blending if you wish to do so. There are 20 designs in this book which is less than most others but as the publishing company (Jade Summer) has provided two copies of each design, it is still a good value. While you can have access to .PDFs when you purchase this book, my review is based on the book as it is received from . That way you will know what the pages look like and how they accept color. I like that the publisher provides the digital version as well so you can choose the paper you wish to use and/or to color the pictures as many times as you choose. This is what I found while coloring in this book and testing the paper with my coloring medium: 20 x 2 each Vampire inspired designs for a total of 40 coloring pages. Designs are printed on one side of the page. Paper is typical of CreateSpace: white, thin, slightly rough and non-perforated. The back of the page is printed black. The designs do not merge into the binding. There is a heavy framing line at the outer edges of the design to give the project a more finished look, especially for framing. Glue Binding (there is room to cut the pages out if you choose to do so.) Though you cannot see the bleed-through easily due to the back of the page being printed in black, I recommend the use of a blotter page when working in this book. I use a page of card stock or several sheets of heavyweight paper under my working page. It keeps seeping ink and marring dents from ruining the pages below. Alcohol-based markers bleed through the page quickly. Water-based markers bleed through in spots. Gel pens and India ink pens leave shadows on back of the page. India ink can bleed through if you apply heavily or multiple coats. Coloring Pencils work well with this paper. I found that I could layer the same color for deeper pigment or multiple colors and I could blend easily using a blending stick. I tested both oil and wax based pencils. I also found that hard lead pencils leave dents through the paper.

Really pretty pictures. I like that they are printed with a black background. Sometimes the faces might look a little derpy, but they are cute, so not necessarily a bad thing. I also didn't realize (probably didn't read) that it came with two copies of each picture. Thought that was pretty nifty as well.

My mom and I love this adult coloring book, the pictures are lovely and there are copies in the back incase you want to change the colors or something. It came on time and the thin box it was wrapped in was easy to open and it came in pristine condition.

I really love this vampire coloring book. It has a lot of detailed pages to keep you super busy. I am going to purchase another for a gift.

I LOVE this book! But then again, I love vampires, dragons and most things fantasy! The quality of her books is beyond fabulous! I have received 3 of her books as gifts before buying this one because I was so impressed. You will love it!

I just love it! She never ceases to amaze me. This book has the coolest pictures to color, this is definitely one of my favorites of hers.

Just as good as the Selena Fenech books, and repeat 1/2 way through just like them too. Great pics. Just as described!
