Play Sports Right: Your Way!

Synopsis

You know the anguish kids feel when their sporting experience has been taken over by pushy parents, and over the top coaches. This book solves that problem by educating and empowering kids to take charge of their sporting lives. This book is a personal conversation between the author, the young sports person and their parents. Every effort is made to engage the minds of young readers and cause them to question the value and direction of their sporting passion. It's meant to be a short read and to stir conversations between children, parents, coaches, and teams--for everyone's improvement. The main section of the book focuses on Dan Brand 1935-2015, who was a 7 time national champion, and two time Olympic athlete. Dan was a great sports parent, and also a coach in his sport. Learn from his advice and example. Dan served as an important mentor to the author.

"I highly recommend Bill Patton's book, *Playing Sports Right Your Way*. This book is exactly what young people and their parents will want to read to navigate their lives through the world of youth sports! Insightful as well as entertaining!" Linda LeClaire Mental Coach
Author of *The Confidence Factor* I think that every parent who has young children (8-12), that can read and make decisions. and is going to embark on a sports journey should be presented with this to help them along. It's written as a conversation to the young athlete, but parents and coaches alike will take something from this as well. I coach tournament level juniors at a tennis club and I coach boys/girls high school tennis. Both of these have very different players and I need to employ completely different coaching

styles, and this book opened my eyes to a few things that I hadn't considered. I plan on passing this along to some young players to hopefully help them on their journey through sports and life. Sean C. Dixon Tennis Coach Great read for parents, kids and their coaches. Bill Patton is concise and clear to read, getting his points across in easy to read and applicable ways. "Playing Sports Right Your Way" is one of the best sports books out there. Andrea Georgian Co-Director Maine Pines Racquet and Fitness. I loved this book. It sets a standard, putting into perspective what is really important in sports - fun, passion, and excitement when you play your way. With over 25 years of tennis coaching under his belt, Bill Patton brings a fresh perspective on the roles and responsibilities of parents, coaches and young athletes in his book "Playing Sports Right - Your Way". This is a cleverly written book written for an 8-12 year old audience; but a valuable read for any young athlete or their parent, regardless of their sport of choice.
