Customer Reviews

Laura Evert has a degree in journalism and is a nature book editor and freelance writer of several wildlife publications. She has written four other children's books for NorthWord Press: Eagles, Sharks, Whitetail Deer, and Wolves. She lives in Rhineland, Wisconsin. Illustrator Linda Garrow has degrees in fine and commercial arts. She has illustrated other books for NorthWord Press, including Frogs, Toads and Turtles; Tracks, Scats and Signs; Caterpillars, Bugs and Butterflies; Rabbits, Squirrels and Chipmunks; Snakes, Salamanders and Lizards; and Trees, Leaves and Bark. She lives in Rhineland, Wisconsin.

The rock images were sketches, not photographs, making it difficult to identify real rocks. Also, there were very few rocks actually included. I am going to find another book.

Good book for the new collector. My grandson loves it.

This was a quick purchase that I made while on a road trip to the West Coast. My 7 year old started collecting rocks when stopped at each state sign. He noticed how different they were and wanted to know why. I found this book and it was a great way for him to discover more about the rocks he collected. Great information that was easy for him to read!![...] Thank you for your time

ÁfÂçÃ ÆœÃ Â°ÃfÂ Ã Â,Ã Â•

Nice beginners book!

Thank you once again. A very fine book to teach with and learn from. I have a rock collection and will use this book.

Great book for the beginning rock and mineral expert explorer. Very colorful, with large print for the new reader, and plenty of photos. Lots of information to get you started on your rock exploration adventures.

This book arrived in perfect condition in great packaging. Looks like a very informative book that my grandchildren will enjoy and benefit from.

This book really makes for easy explanations of rocks, fossils and arrowheads. I have also bought several others on different subjects. These were gifts for my nephews who absolutely love them.
