Customer Reviews

Its a quality product, but deceptively pictured. The one I got in the mail has a black and white cover. For the cost (which isn't cheap) it should have been color. Quality product nonetheless. Maybe there are two versions, but I don't like the cost being so high, when you get it you'll see, it should have been half the price.

Not what I thought it was. The maps are nice but that is it. I was wanting the something like the old sprawl guide. Not a 15 page booklet. The black and white cover throws off what one expects. Need to change you advisement or update the description. Got here quickly...

Excellent book. Version is celebrating 20 years of Shadowrun is the best. Very complete book. Highly recommend. This supplement Shadowrun comes complete some small details that are missing in the basic book. The Work of the publisher is impeccable.

Maps work as intended, laminated, book is B&W with enough info to get you started
