This guide goes way above and beyond! All the travel tips, scam alerts, attraction listings and pricing help contained in these pages make this the perfect guide to study before you head to Barcelona! It would take countless hours of research to find out what I was told in the first 2 chapters of this book. I consider this a must-have if you are planning a Barcelona trip. Highly Recommended!

I must admit that I've been pretty loyal to Lonely Planet during my travels, but some guy I met in a

hostel showed me a One-Two go guide book on his kindle. I was pretty impressed with it so I decided to stray from my loyalties for my trip to Barcelona and bought one of these instead. My biggest like about this book is the ease of reading. It is split into easy to follow categories. The 15 must see sites if you are on a short trip as well as top 25 attractions. Also included is information on food, hotels (budget and luxury) and even how to get cheap flights. Also, the maps can be configured to your kindle so it shows you where you are! I am very pleased with it. I will buy again for future trips, for sure.

I have booked to go to Barcelona. Reading this book has confirmed that I have chosen a great location with lots of beautiful attractions!! This guide proved to be very helpful for me to organize my trip and make the best out of the days I have planned for this visit! It covers all aspects of everything we will need for our trip, from local food specialties and hotels for all budgets, even how to move with transportations!! I am very pleased with it. This ultimate guide of Barcelona has everything I need for a well-organised trip!

This is such a helpful and easy to follow guide to Barcelona. It covered everything, from getting in, to hotels, to attractions, in a clear and simple manner. It would have taken me hours to find information half as good as this online - I'm so glad I saved myself some time and stress and decided on this book. For the price, I wouldn't recommend anything else.

This is a well-organized, clearly written book that cuts to the chase to offer the top tourist sites in Barcelona. I found it very helpful.

Nice quick guide to Barcelona for those who have little time in the city and want to make the most of it.

Just the perfect amount of information for a weekend trip to Barcelona! Very easy to follow and completely updated in terms of schedules, prices, etc.

Concise, with good tips and beautiful pictures. Helps you to get an idea of where everything is located in the city and will be a valuable tool in planning our trip!
