Customer Reviews

The format of this book is my favorite, spiral-bound, great close-up, step-by-step photos....perfect for me, I am a hands on learner. Just enough description and nice amount of further resources listed. Love it.

I took a class in primitive rug hooking plus purchased this book to get started. The pictures are wonderful. The book explains the entire process and what is involved. There are references in the back in regards to materials and resources. I would highly recommend this book if you are interested in learning this wonderful craft. I am unable to just sit and watch TV but must be doing

something creative. This craft is very fulfilling and this book will help you to get started! It begins with a very small project and progresses with each chapter to a more challenging project.

I am a novice at rug hooking and this book showed me exactly what to do and answered some of my questions. I am not taking a class because I have no time in my schedule for that -- this book is teaching me basics. Definitely worth the money.

I have never "hooked" before, but have loving memories of those created by my grandmother. I intend to make some for my relatives. And for myself, and my more modern tastes, it is clear that this technique lends itself easily to any style of design.

Enjoyed the book very much. Looking at the different pictures inspires me to gain experience so I can eventually take on the more involved pieces of work.

Love the book.

Oooooo! So many great ideas. I want to quit my job, stay home, lock the door and HOOK!

This book was very helpful to me as a beginning rug hooker. I'm glad I found and bought it. Thanks
