Ridiculously detailed, beautiful and almost too nice for my kid! I think I am more enchanted with this book and notice new details every time I open it. It is more than a work of art as it contains nicely summarized stories for each Princess vignette. Makes reading fun for Mom and kiddo!

Beautiful book! Extremely impressed with the quality and the clever designs of the the pop up artistry. The main pop up arts in the center are incredible and most have very intricate pull tabs that work like magic! At the blink of an eye, Cinderella is transformed by fairy godmother's magic. Each page contains smaller pop up arts of various Disney princesses and characters. Adults and kids are equally fascinated by this book.

Beautiful book but fragile. I expected that it would be but some of the pull tabs ripped within the first couple of uses by my daughter (she's 5) even though she was being very careful. She does love the book though and a bit of tape here and there fixed it right up. The book has some truly amazing pop outs...a real collectors item. But not really for smaller kids.

This is an awesome book for a kid that loves Disney, or just any kid that has a good imagination. The stories are very well done and the pop ups are amazing. All together a great value and it would be a very impressive gift for a child too.

Great book, Terrific quality. It was much bigger than I anticipated and very easy for toddler to flip through. Seems sturdy quality so hopefully it will last for years to come.

Just gave this wonderful book to our 6 year old. My husband was amazed over all the details. Scenes are very beautiful and intricate. Like other reviewers have said the book is delicate.

Beautiful book, however the pops up do not operate smoothly. Extra help is required for transformations and one shape does not fold properly. Can not be operated by a child.
