Customer Reviews

I have to admit that people skills were never my strongpoint. While I had no problem making friends, my problem was handling problem people and taking a leadership role. I read the book "How to Win Friends and Influence People" many times. It made all the difference in human relations and I made the transition to a people person to the point where I can handle anybody and have developed strong leadership skills. The command that one should listen to others and let them talk about themselves is crucial to being liked. A "simple" idea like that one is one that actually works. I'm considering putting his nine rules for effective leadership on my wall so I can remember to generate enthusiasm in others and lead by example.

I've been a manager in a company and often see myself in some situations that are described in this book. It contains a lot of informative and helpful tips about how to deal with people, how to apply each principle. I learned how to get the best of an argument, without hurting the other person's pride and how to call attention to people's mistakes indirectly. This book has been helping me a lot in my workplace and outside.

I read Carnegie's original a long time ago. This is a terrific synopsis of all the ideas in the book.

I really did enjoy this book. The book pointed out everything that I thought I was doing correctly but now I know how to win friends and influence people. I never knew just by smiling you can affect so many people and avoiding arguments is the best way to win an argument. Overall of the book was great and I wish it had more content on it. Highly Recommend it !

Great seller! Will use again.

This seems to be a rewritten and reorganized version of the one I read 40 years ago. And it seems to be maybe more interested in genuine relationships (?) I want to spend more time reflecting on these issues and incorporating them. Maybe if I'd done that 40 years ago, life would be richer today.

There is many really good points in this book. I especially like the approach of asking the right questions so that both parties can come into agreement. This allows everyone to walk away feeling good. I've heard of this approach before and glad to be reconnected with this classic wisdom.
