Cheaply made. You are getting what you paid for here. I would suggest buying the desk putt putt course that comes in a book. You can't even get the ball out of the hole without turning it upside down and spilling all of the sand. It came packaged nicely but only including one ball is a mistake because it's so easily lost.

So much fun playing tiny "mini" golf. Lots of laughs.

once the ball goes in the hole, you can't get it out because you have to flip it over...bet there is sand in the traps. we were able to give some tape to get it out eventually. but 100% impractical

Pretty pissed off at this. I did not get gold balls in the package of the desktop golf set. At the very least, include all items please.

Nice desk gift for coworker. Small enough to not take up too much space. Conversation piece.

I got this for my dad as a gift and he loved it! It's a fun piece to have on an office desk for fun. Great simple and easy gift for a golf lover!

Such a fun little gift for gold lovers. Way smaller than expected though

Bought this for a golfing friend and he absolutely loves it!
