The Record Store Book: Fifty Legendary And Iconic Places To Discover New And Used Vinyl

Synopsis

In 2011, Mike Spitz began photographing dozens of record stores in and around the greater Los Angeles area, rich with old and new record shops, to capture the lively experience of going to the independent record store. Beautifully wrought on color film, his photographs illustrate how each store has a unique and vibrant culture, and the stimulating experience of being in a record store and discovering that rare vinyl record, cassette or 8-track tape, memorabilia, vintage concert poster, turntable, nostalgia, or other music-related gems. The inclusion of in-depth interviews with store owners demonstrates how record stores cultivate a communal gathering place for human interaction, exploration and discovery. In chronological order from the oldest existing stores, such as Canterbury Records that opened in 1956 in Pasadena or Music Man Murray Records that opened in 1962, to the most recently opened stores, *The Record Store Book* respectfully marks the changing of the guard from the older to the newer generation of stores as each owner shares facts, store history, and distinctive points of view regarding how people search for, find and appreciate music.

Book Information

Paperback: 240 pages

Publisher: Rare Bird Books (April 14, 2015)

Language: English

ISBN-10: 1940207657

ISBN-13: 978-1940207650

Customer Reviews

"Spitz's photos showcase the people and products that give each [record store] their distinct personality. He shot exclusively with film, an aesthetic that mirrored the sonic quality of analog music." [Slate](#)

Mike Spitz got his first drum set when he was eleven years old [Slate](#); a sixties red sparkle Ludwig.

On his walks home from elementary school, he used to stop into the local record store, Everybody's Records, on Montgomery road in Cincinnati. It was at that time in the late seventies and early eighties when he began to collect records and CDs, many of which he still has today. He moved to Los Angeles in 2000 and found his artistic home in still photography, where he has stayed. Spitz has been able to revisit his musical roots by merging his interests of photography and music in *The Record Store Book*. Spitz's photographs have been seen at the F9 Gallery in Los Angeles, Artists Haven Gallery in Ft. Lauderdale, FL, Amsterdam Whitney Gallery in New York City, and the Infusion Gallery in Los Angeles. His most recent exhibitions include the Julia Dean Photo Center Gallery in Los Angeles, the 2012 International Juried Show at the North Valley Art League in Redding, California, the Los Angeles Brewery Spring Art Walk, and the ADC Contemporary Art Gallery at Bergamot Station in Santa Monica, CA. When he's not out collecting records, Spitz has an MSW in social work and a full-time career as a licensed clinical therapist working with behaviorally and emotionally challenged children. He also has taught photography to troubled teenagers, using it as a therapeutic means for self-expression and creativity. Mike became a first-time father in March of 2014. He lives in Silver Lake with his girlfriend and son Max. Rebecca Villaneda is a Los Angeles-born writer educated in southern and northern California. She now lives in Santa Barbara. She is the youngest of four children, all first-generation Americans. She received her bachelor's degree in journalism at San Jose State University, and became a writer to raise awareness of social and environmental issues, and because her mother's passion for the written word was contagious. She was a staff writer for the national online magazine, *HispanicBusiness.com*, where politicians and international entrepreneurs were her subject matters. These personality types, coupled with musicians, philanthropists, and scientist, have given Rebecca a strong versatile foundation in the art of interviewing. Her first book, a collection of autobiographical short stories titled *Stories 4 Women*, was a collaboration with three other writers released in November 2010. *The Record Store Book* is a dream project for her; she is passionate about music and everything and everyone it touches.

I love this book and the interviews with the various store owner, but the binding sucks. I returned the first one because it was falling apart and the replacement copy started falling as well. Updated the replacement also fell apart within weeks of receiving. Although I love the stories and photos I can't recommend a book that so easily falls apart.

What a beautiful and interesting piece of yesterday and today! I thought this would be a nice "coffee

table book" to go with my vinyl collection, but I am surprised by what a treasure The Record Book really is!! Thoughtfully written, and beautifully photographed, this documentation of the vinyl medium is awesome. I feel the love and care that went into the writing of this book, and I am now even more proud of my home town of LA, and more proud of the vinyl I have in my library. I feel like this book is a puzzle piece that will be needed as the years continue. A puzzle piece which will bridge my grandparents' generation, and my childrens'. This is definitely a great gift for my musician friends. I'll be getting more copies for sure.

Everything I wanted it to be. Super informative and eye opening. Sad that some of those shops have closed but really glad to learn about other stores that were new to me.

As an avid record collector this takes me back to the glory days. I can smell the old cardboard covers. It was nothing like flipping through crates looking at the backs to see who was guesting on the albums. vinyl is alive. This reference will give you a map of current and memories of past record stores.

A Glimpse at some very cool record stores in CA...If you're going out there to dig you might really want to check out this book...Well done!

I wish this was more record stores than only ones in California but that is in the description so my fault for not reading closer. I got this for my husband as a gift and would have liked a wider variety of places but it's still a pretty cool book. Just more specific than I wanted.

Such an awesome book rallying behind a very interesting and important industry!

nice
