No long description of this book is necessary, just trust me.....it is a book you will not put down till you finish it!!! I have an extensive collection of books written about the Holocaust and this one is one

of if not the best. I began to read it and I immediately was drawn into the story and could visualize what the author endured so very long. No matter how good a book is there are usually a few dull moments or something like that, but this book honestly never did. Each page, each word was brilliant! I read it in just one day, there was no way I could put it down. So I recommend this, do not begin the book until you have a free day and then begin it in the morning and let yourself enjoy it without having to be interrupted for work, school. etc. I would really like to thank the author for this incredible book!!

I read this book in high school and wanted to read it again. This book is completely amazing. The emotion, the will to survive and loyalty to family. It's a heartbreaking memoir and it's even harder to imagine me and my own family having to go through this. David Faber is a great writer and I'm honored to have this book.

I have read many true stories about the Holocaust so very familiar with the pain and suffering that is always unbelievable to me that such things actually happened! I liked this book very much...the writing made me feel like I was actually there. Even tho it was not a literary masterpiece and simply wrote, it held my attention to the end.

Wow. Amazing, life changing read. Exceptionally mature content so do be aware that this isn't an easy read for an adult, let alone a teenager or child. Some of the stories haunt me. But I do feel it's an important story to be aware of. We need to understand on every level the tragedies that occurred in order to develop proper empathy for others.

Wonderful and powerful book. But very sad.

While I found this story to be very confronting with its shocking tales of the brutality of the human race, I could not put the book down until I had finished it. I had to know how this poor little boy could have survived such inhumane treatment, but he has lived to tell the tale, the dreadful tale of the worst aspect of humanity. Check out David Faber's radio presentation on Focus on the Family. I have been truly privileged to listen to this amazing man's voice as he relives his experiences.

It was absolute moving. I bought and read it at the suggestion of my English teacher. I do not regret this buy. I love this book. The book's condition was great.
