the possibility of them being real. It was these woods, he knew so well having hunted on the property for over 30 years. It was his fellow hunters that would report strange Ape and Gorilla sounds. Also what animal out there could deficate on rocks, as large as three feet high in the middle of a creek? ! That was just some of the odd and unexplainable events he would start to journal, not knowing it would lead to a book. It would be his wife, also an unbeliever, who would have the first sighting. Also read a heartwarming story about 11 yr old Elijah who was too young to know the meaning of fear and would sit out at night talking to them as they saw them on the hill. He made a simple request; would it be answered before he left camp? In reference to Elijah, my favorate quote is $\tilde{A}f\hat{A}c\hat{A}$ $\hat{a} \neg \tilde{A}$ \hat{A} " I have heard children describe them as hairy people, hairy friends, hairy boys etc $\tilde{A}f\hat{A}\phi\tilde{A}$ $\hat{a} \neg \tilde{A}$ \hat{A} . never monsters $\tilde{A}f\hat{A}\phi\tilde{A}$ $\hat{a} \neg \tilde{A}$ \hat{A} Maybe we could learn a valuable lesson Ãf¢Ã ⠬à Âfrom them?Ãf¢Ã ⠬à •Ron Morehead (who collected a series of vocalizations (Sierra Sounds) is interviewed, as well as Scott Nelson, a 20 $\tilde{A}f\hat{A}\phi\tilde{A}$ $\hat{a} \neg \tilde{A}$ \hat{a} œyear Navy Veteran, skilled and highly trained in linguistics. I am so happy I bought this book. I am a believer and a novice habituator at my remote Sierra Nevada home. I long for these experiences and with this good information will have more confidence moving forward with the local FOREST PEOPLE. If you are a believer you will love this well written book. If you're a skeptic you will find it hard to believe. Great work Keith. I will try to contact you.

Very interesting and shocking revelations! I enjoyed the way everything is written and seems this guy has some crazy stuff going on! Lots if information here I consider it a must read for anyone interested in Sasquatch!

while the content is interesting and thought provoking, it's sometimes hard to read because of many typos and other errors. All books increase their legitimacy when they're carefully proofread and at least nominally edited. Still worth reading as the author adds another layer to the sasquatch mystery.

I loved this book. I wish it were longer. A very good read and very interesting. I would recommend it highly. It is more of a personal experience story than scientific. It is like a breath of fresh air.I couldn't put it down until it was finished. Please buy.

Excellent book!! A lot of similarities in what I have experienced, tree bows that are not natural, tracks, bird sounds at night of birds that do not sing at night and some sounds I could not identify as anything I ever heard in my area, friends and family have seen the outline of them at night, I am still waiting to see them. Best wishes to you for your continued journey.

I loved this book. The author did a great job of telling his story without trying to sell anything. He made me even more certain that these creatures exist and I loved reading about his personal experiences. I hated for it to end!

This book.....buy it, read it! Best story, and most believable story I have ever read on the subject. Fascinating! Not one of those instructional or trying to explain the animal. His own experience......GREAT BOOK!!
