Customer Reviews

This is the dumbest nursing book. I got my LPN a few years back. Those text books were more organized. They had bullets that summarize the chapter. This book has no objectives or summary for each chapter. It's FULL of unnecessary STORIES and redundant material that are just FILLER. They just wanted to make this book as long as possible so they could get more money

Used the entire book. Great product

Did not know it would be only for one year? I had to buy another year extension!
