## Customer Reviews

I have multiple Lonely Planet books and absolutely adore them, so I was really excited to get this one in particular since we're planning a NE road trip for our honeymoon. However, this ended up being my least favorite to date, it seemed like they tried to cover way too much information, so this ended up being more of an index with a little bit of information on EVERYTHING but not quite enough to feel comfortable making a plan without sourcing other books and articles. If that's what you're looking for, this is the book for you. If you want more detailed information on each location and it's histories and photos, I'd maybe look elsewhere..

Lonely Planet does a good job in this category, but I miss Birnbaum
