Customer Reviews

This book seems put together from recipes of other authors. I wasn't impressed when I saw many recipes I have already made and the only difference is just one ingredient added (nice way to circumvent a lawsuit). The biggest giveaway of my theory is that she specifies that some recipes are in Fahrenheit and others in Celsius? Why? Aren't you a cook? Why not convert the recipe temperatures to Fahrenheit and keep the reading consistent? I appreciate the effort but I won't be keeping this book in my collection.

Avoid. No narrative And there are no pictures. Lots of typos. Cheesy recipes. Not worth 99 cents would not recommend.

I've bought this book for my mother, because earlier I bought a fryer for her and she didn't know what to do with it! But having read some recipies she immediately wanted to try to cook something. Especially I liked the Chicken Kebab. Nice book, nice recepies!

Looking fir new recipes. All the books have the same ones

Love it
