Respiratory Care: Principles And Practice

Synopsis

With contributions from over 75 of the foremost experts in the field, the third edition of best-selling *Respiratory Care: Principles and Practice* represents the very best in clinical and academic expertise. Taught in leading respiratory care programs, it continues to be the top choice for instructors and students alike. The Third Edition includes numerous updates and revisions that provide the best foundational knowledge available as well as new, helpful instructor resources and student learning tools. *Respiratory Care: Principles and Practice, Third Edition* is a complete and up-to-date exploration of the technical and professional aspects of respiratory care. With foundations in evidence-based practice, this essential resource reviews respiratory assessment, respiratory therapeutics, respiratory diseases, basic sciences and their application to respiratory care, the respiratory care profession, and much more. *Respiratory Care: Principles and Practice, Third Edition* incorporates the latest information on the practice of respiratory care into a well-organized, cohesive, reader-friendly guide to help students learn to develop care plans, critical thinking skills, strong communication and patient education skills, and the clinical leadership skills needed to succeed. This text provides essential information in a practical and manageable format for optimal learning and retention. Including a wealth of student and instructor resources, and content cross-referencing the NBRC examination matrices, *Respiratory Care: Principles and Practice, Third Edition* is the definitive resource for today's successful respiratory care practitioner.

FEATURES More user-friendly content specifically for the anatomy and physiology of respiratory, cardiac, renal, and neural systems. Expanded, revised, and enhanced resources for students and instructors More than 580 photos and illustrations, and more than 300 tables and equations

KEY CONTENT 2015 NBRC Competencies AARC Clinical Practice Guidelines Patient Safety and Protocols Ventilator Associated Events Patient Education Critical Thinking Prevention of Re-admissions Affordable Care Act

NEW CHAPTERS Extracorporeal Life Support for Respiratory Failure Respiratory Anatomy Respiratory Mechanics Control of Breathing Cardiovascular, Renal, and Neural Anatomy and Physiology

CHAPTER FEATURES Chapter Outline Chapter Learning Objectives - correlated to the NBRC Key Terms Boxed Features Respiratory Recap - a review of key study points for core content Stop and Think - provides an opportunity for critical thinking Age-Specific Angle - provides unique differences that are age specific - usually pediatric/neo-natal focused or geriatric Case Studies Equations Clinical Practice Guidelines Key Points References

Customer Reviews

The book was good. The price for a student was steep.

Book was as advertised

Came in perfect condition

Upon receiving the textbook I opened it and saw the 1st 100 or so pages are not connected to the spine! This book is expensive and is supposed to be brand new. I am very disappointed.

Arrived in perfect condition. Required text for my wife's class.

Book came in sooner than expected, which it was good. The book came in plastic. Brand new

great arrived in a timely manner cheaper than school just what I needed

In time and perfect.
