# Day Hiking: Mount Rainier National Park Trails

## Synopsis

CLICK HERE to download two hikes "Yellowstone Cliffs & Windy Gap" & "Box Canyon" from Day Hiking Mount Rainier \* 70 national park trails, each rated on an overall-quality scale of 1 to 5\* Hikes-at-a-Glance chart, topographic maps, GPS waypoints, and elevation profiles\* Crystal-clear directions with drive-times from major cities and junctions\* 1% of sales donated to the Washington Trails Association for trail maintenance

The tallest mountain in the Cascade Range has long beckoned hikers to its many trails. Compact, portable, and beautifully packaged, Day Hiking Mount Rainier provides the most thorough coverage of Mount Rainier National Park to date, including the park's four main entrances-Nisqually, Carbon River, White River/Sunrise, and Stevens Canyon/Ohanapecosh -- as well as Cayuse Pass and Highway 123, the Grove of the Patriarchs, Camp Muir, parts of the Wonderland Trail, Longmire, and Paradise. Nearby camping options are included, plus info on how to extend your hike, a full-color photo insert and overview map, quick-reference icons for kids, dogs, views, and much more.

\*\*Mountaineers Books designates 1 percent of the sales of select guidebooks in our Day Hiking series toward volunteer trail maintenance. Since launching this program, we've contributed more than \$14,000 toward improving trails. For this book, our 1 percent of sales is going to Washington Trails Association (WTA). WTA hosts more than 750 work parties throughout Washington Cascades and Olympics each year, with volunteers clearing downed logs after spring snowmelt, cutting away brush, retreading worn stretches of trail, and building bridges and turnpikes. Their efforts are essential to the land managers who maintain thousands of acres on shoestring budgets.

## Book Information

Paperback: 224 pages

Publisher: Mountaineers Books (March 11, 2008)

Language: English

ISBN-10: 1594850607

## Customer Reviews

"Day Hiking: Mount Rainier and Day Hiking: North Cascades, both from The Mountaineers Books, are strong additions to their expanding day hike series." (Klamath Falls Herald and News)"A marvelous new guide to day hikes around the great Northwest mountain; detailed maps, elevation charts and photos add to the guide's essential character." (Seattle Post-Intelligencer)"Hot new series." (The Daily News, Longview WA)"The Mountaineers Books new Day Hiking series of guide books is a worthy successor to the classic Washington hiking guides authored by the late Harvey Manning and Ira Spring" [The] Day Hiking series was designed and written with the needs of hikers in mind." (About.com)

DAN NELSON is the author of numerous guidebooks, and creator of three best-selling national series: Snowshoe Routes series, Best Hikes with Dogs series and new Day Hiking series. He served as the executive editor of Signpost for Northwest Trails, published by Washington Trails Association, between 1992 and 2003. He currently serves as the Public Information Officer for the Olympic Region Clean Air Agency, and heads The Gear Institute, a network of outdoor gear testers in America dedicated to providing professional, objective, and helpful advice. He writes "Getting in Gear" as a columnist for The Seattle Times, and is a frequent contributor to Backpacker. Alan L. Bauer is a professional freelance photographer specializing in the natural history of the Pacific Northwest and coverage of local history. His work has been published in Backpacker, Northwest Runner, SportsEtc, Northwest Outdoors, Northwest Travel, and Oregon Coast magazines as well as The Tacoma News Tribune, The Bellingham Herald, and the Getaways weekly outdoor recreation magazine insert for the Seattle Post-Intelligencer. Alan also contributed photographs for the Washington titles in the new series Day Hiking. Learn more about Alan at, [www.alanbauer.com](http://www.alanbauer.com)

I know Mt Rainier very well and have many of the "classic" Spring / Manning books (also from the Mountaineers) on Rainier / Cascades. I've also looked at / owned many other hiking books over the years and have always been amazed at the inconsistent quality of many (most) hiking books via other publishers and the very pragmatic and helpful books via the Mountaineers. This volume continues the great tradition of the Mountaineers books and upon the classic Spring / Manning volumes. If you're going to get one general hiking book on Rainier, then it's a no brainer; get this

one.

I purchased two different series of books from for an upcoming hiking trip to the WA area. The Mountaineers series definitely beats the other in terms of usefulness and enjoyment. It has great information about each hike, including rating, difficulty, elevation gain, length, etc. The only thing I wish it would include is estimated time. That's the one thing offered by the other series that is missing from this one. However, this one also includes GREAT photos of nearly every hike it discusses. Also, the way it was written is very entertaining, not too dry. The book was written in 2006, though, so I hope to find that most of the information is still up-to-date.

Good maps, pictures and route descriptions. Actually got my wife to consider going along on some hikes (except for the parts about bears :-).The only additional thing I would have liked to have seen is something about the weather (spring, fall, summer) and recommendations on what to bring along as far as clothes, gear, etc.

I purchased the Day Hiking Mt. Ranier and have been very pleased with it. We hiked several trails from Shadow Lake/Sunrise area and found the book directions very complete and accurate. We had no problems hiking the area! We spent a lovely 3 days hiking among the wild flower meadows and alpine meadows and beautiful mountain views.

This book gives you many different trail options, from a gentle walk to much more strenuous and challenging hikes. The instructions are clear, with good summaries of distances/elevation gain. It is also small enough to easily fit in a day hiking bag. Would thoroughly recommend!

Good detail

I love this collection of books and think they are an essential series for the avid hiker. Small; light weight easy to pack and has exceelent hikes

The Mountaineers day hiking books, including this one, are fantastic for anyone in the WA area. I have several of them. Highly recommended.
