## Customer Reviews

First of all, I will say that this map does have good, heavy duty lamination. But that's the only good thing I can say. I wish I'd read the reviews before I purchased this. It looks like something someone did at home: it's pieces of a map cut apart and laminated (for easy folding, I guess), the western part of the state has been cut off and placed below the rest of the state (to make a square map instead of a rectangle), and the edges of the lamination haven't been cut evenly. This map is probably fine for someone who needs something easy to use in the car, but I'd planned on using this in my homeschool to teach my child about our state. I'm going to have to cut it apart and put it back together myself so my son can actually see what the state looks like.

I really thought that this was a joke at first, the map is terrible, it looks like cut up pieces that have been laminated together, with decent sized gaps in between. The map also is split up into sections of the state on front and back side of the map, meaning you never get a full state view. I will be returning this map, and would never recommend anyone to purchase this "map".

The map is compact, the covering keeps it clean and protects it for tearing. Just what I needed.

Plastic cover good. Map lacks detailed view of features, street, highways.

It is just what I expected and needed to see the entire state in my lap.

Just wish it was larger since I mostly use them for planning routes

Smaller than I expected but definitely convenient.

Great size and laminated to make it last longer. This will certainly help get me around on the mountain roads that seem to 'disappear' on my phone's GPS system when I'm on the road to find a good fishing spot. This stays in my car at all times!
