Journeybook is divided into three sections: Use the Trip Planner to assist with all the practicalities of travel like packing and budgeting. This section offers checklists, itineraries and other practical tools to guide you through all the quirks of travel planning. The Travel Journal section offers a number of tips and writing prompts to help you develop a regular routine of journal writing, and inspirational quotes are included along the way to keep you engaged as you jot down your memories. It also includes 10 blank pages so you can draw pictures of whatever you see and glue in snippets from newspapers or magazines that you pick up along the way. Travelling brings up questions. A lot of them. The Travel Resources section provides tools to answer some of your questions as well as a list of online resources to point you in the right direction. Travel forces us to grow in ways that we likely would not if we stay on home turf. Just as a seed grows into a mighty tree, we can use travel to plant a seed of potential. Experience it. Feel it. Absorb it... then reflect on it and record it all in your Journeybook.

UB Hawthorn has been on the road since 2007, spending three years in South Asia and the rest of the time bouncing around North America and Europe. He edits *The Mindful Word*, a journal of engaged living where he publishes his transformative travel stories (themindfulword.org). He also writes on a freelance basis for various magazines and websites and is working on building schools in the developing world through an organization he started called Build to Learn--10 percent of proceeds from the sale of this book will go towards the building of schools for children who lack the opportunity to gain a quality education in their village.

I chose this journal as a gift because I felt it had better questions and info at the beginning and the end than any of the others I looked at, and that was my primary goal. I would buy it again for those reasons. I can't give it 5 stars because the paper is not high quality, the middle is just empty journal pages (they are lined, which is good, but no reminders to add any memorable details), and the maps are useless (tiny & gray doesn't work on this kind of manila paper).

Got it for a friend's birthday. Not exactly what I thought (I thought there would be more pages) and seems it's only good for 1 trip. But still the only book I could find that's like what I wanted to get her.

Cheap product. Flimsy cover. The first 20 pages or so are a Harry Potter spell book but the rest of the book is the listed journey book. Very weird.

Boring display and did not include any useful tips for travelling and the layout made it more of a hassle to use.

I recently was on a trip, and this journal was extremely helpful. It had journaling prompts, a section for itineraries, a section for planning ahead prior to travelling. For those that are new to journaling I especially liked the journaling prompts that can be used as inspiration. Lightweight and extremely handy. Would definitely recommend it.

this is really the perfect little book to have for any travel excursion you have planned. The first part of the book contains numerous useful features such as checklists for before the trip, packing lists, budgets and itineraries. The second part of the journal is truly a journal complete with useful journaling tips and writing prompts specific to travel. My only criticisms would be that I'd like to see this journal in a spiral form, with thicker paper and a pocket or two for memorabilia.

Arrived early! Awesome.
