# The Villain Virus (NERDS Book Four)

## Synopsis

A virus has infected the Arlington, Virginia, home of the NERDS headquarters, and it's much worse than your run-of-the-mill flu. Instead of coughing and sneezing, the victims of this voracious virus are transformed into superintelligent criminal masterminds. Soon nearly everyone—including some of the NERDS team—is plotting to take over the world. With more people breaking out into evil cackles every day, it's up to Flinch, the hyperactive superspy with a sweet tooth, to stop the virus. Flinch will have to miniaturize himself and take a fantastic voyage through supervillain Heathcliff's body to fight white blood cells, stomach acid, and a nest of nasty nanobytes in the hope that he can save the world from the Villain Virus.

## Book Information

Series: NERDS (Book 4)

Best Sellers Rank: #280,282 in Books (See Top 100 in Books) #102 in Books > Teens > Science Fiction & Fantasy > Fantasy > Superheroes #378 in Books > Teens > Literature & Fiction > Humorous

## Customer Reviews

Michael Buckley is the bestselling author of the Sisters Grimm and NERDS series. He has also written and developed shows for Cartoon Network, Nickelodeon, and Discovery Channel. He lives in Brooklyn with his wife, Alison, and their son, Finn. Visit [teamnerds.com](http://teamnerds.com).

Book 4 in a series that I can't praise highly enough. My son is in the 6th grade, and HATES reading more than anything in the world. His teacher suggested this series, and I can't get him to put these books down. That alone is worth 100X what I paid. The story follows a group of spy kids, who's super powers originate from their supposed weaknesses - asthma inhalators that double as jet packs, braces that transform into anything, etc...They use their powers to save the world from

various villains. In this book, there is a virus outbreak that takes over people's minds and is turning everyone into villains, even the spies themselves!

This is one of the best books I ever read! The NERDS move to another school. Everything's good until Julio "Flinch" Escala attacked some kids. Principle Dove is watching him now. Agent Brand realizes that something odd is going on, first a guy who works at NERDS tries to bomb Paris, then a guy who works at the mall shrinks the empire state building. On that mission they discover what is going on when Weezer tries to kill Flinch. Brainstorms New nano-bights are also a virus that's turning people evil. Only Flinch seems to be immuned to it. When the rest of the NERDS try to kill Flinch in Hollywood there's only one option. The remaining grown ups of NERDS send Flinch inside Brainstorms body so he can destroy the transmitter and save the world. But many dangers are in his body...I recommend this book for EVERYONE!!!

Flinch was great in book 4 and a valuable lesson was learned about perseverance and self confidence. We read the series as a family at night and we are eagerly awaiting book 5. Can't wait to see what becomes of both Heathcliff and Ms. Holiday.

We have most of the Nerds books and my son really enjoys them. They are creative and fun and I think the author does a great job tackling many issues kids face in school today--not fitting in, bullying, and self-image, among other things. Really enjoyable books! Fun, witty and imaginative!

My son grabbed the first Nerds book off of the shelf one night because we made him read. Once he started, it didn't last long and neither did the following four! He's bummed out that he has to wait another month for the fifth one. He is 9 and in 4th grade and each book lasted him about a week.

My son is a very picky reader. He likes funny books, but has to "relate" to the characters. I have bought so many books over the past few years that have gone unread. I purchased the "NERD" series for him, and he can't put them down! I am THRILLED that he has finally found a book series that he loves and enjoys reading!

Another great NERDS addition. We've read them all and haven't been disappointed yet. EXCELLENT for my 5th grade reluctant reader.

This is one of the best books I have ever read!! Michael Buckley is a really good author, making me crave more nerds. Plz write a book 6!! Plz?!
