### Customer Reviews

This is an excellent place to get your feet wet in starting your studies of Wicca. This book was very educational and very to the point. The spells were extremely detailed and easy to follow. I enjoyed the fact I could learn so many different aspects of the Wiccan religion in such a small amount of time.

This book first's chapter explains Wicca better than anything I have ever read. A good basic guide to the practice of Wicca for a solitary practitioner. Simple easy to read for beginners like us. Lots of information to refer to later and a good complete book on Wicca.

It tackles about its history, 'bout religion, how it started and other stuff about Wiccan. This book has a different kind of series or variety for beginner, intermediate and advance. This is a step by step guide and if you're really a beginner you should picked the right book for you. The author give detailed and useful info. it's hard at first, but it just need a little bit of patience and a whole lot of practice to do better. Good book to read as a beginners guide.

I read this because I was looking for more information on Wiccan rituals for a friend. Although the said ritual was not detailed it did have many useful things I was able to highlight and send to her that helped us in defining this ritual. Found out I'm an Eclectic Witch and not a Solitary one. You have NO idea how much that simple definition gives me peace of mind. Thank you.

I like all the spells it has... most of them I need... sometime I don't have to do the Spell... just thinking of it and things happen

Fascinating read. was babysitting my niece who wanted to make the purchase. Couldn't believe the value and detail provided. Very easy to read for beginners like us. And it guides you through to advanced. Very interesting stuff.
