# California School Law: Third Edition

## Synopsis

Now in its third edition, California School Law is the only comprehensive source discussing how federal and state law affects the day-to-day operation of the state's traditional public, charter, and private schools. While the book is comprehensive, the authors have written it for a broad audience. California School Law has become a coveted desk-top reference for administrators, governing board members, school attorneys, union leaders, and policymakers. It also has been widely adopted as a classroom textbook in educational administration and education law classes. The first chapter provides an explanation of the legal framework within which California schooling takes place and key players at the state, district, and school level. Ensuing chapters examine student attendance and truancy, curriculum law, employment law, teacher and student rights of expression, the school and religion, students with disabilities, student discipline, privacy and search and seizure, and legal liability in both state and federal court. Also included are chapters on unions and collective bargaining, educational finance issues, and racial and gender discrimination. Appendices provide a glossary of legal terminology, an explanation of how to find and read legislative enactments and judicial decisions, and a list of sources for accessing law. The book's table of contents is included on this website. Law never stands still. To keep current with changing legal precedent, the authors maintain a cumulative update for the third edition at [www.californiaschoollaw.org](http://www.californiaschoollaw.org).

## Customer Reviews

"Finally, this is the comprehensive, thoughtful, and lucid treatment of California educational law and policy we've been waiting for. The authors not only explain the complex world of California school

law with a lawyer's precision, but they make this sometimes arcane topic both lively and compelling with rich examples and from a national perspective." (William S. Koski, Eric and Nancy Wright Professor of Clinical Education, Professor of Law, and Professor of Education (by courtesy)) PRAISE FOR THE FIRST EDITION "I would recommend this book to every educator and policymaker in public education. It is a great reference for immediate and comprehensive information on a variety of laws that govern California education." (Sonny H. Da Marto, Superintendent, Turlock Unified School District Past-President of the Association of California School Administrators) "California School Law is a new and different contribution to the California policy scene. The writing is a blend of law and policy that is easy to follow." (Michael Kirst, Professor of Education, Emeritus, Stanford University)

Book was fine. Sadly I am apparently better informed than many of my peers and I found the book to mainly cover cases and laws with which I am already familiar. If you don't stay up to date on school law than this book will be fine, but there were no cutting edge cases. There is more current info online, but it is a textbook, so..... like most textbooks it has tried to stay up to date, and the

info in it is correct as of the date of publication.

Perhaps the most comprehensive and readable summary and explanation of California's education laws I have found. It also includes summaries of federal laws that apply to education in every state. Anyone who is involved in California education law will not find more "bang for the buck" than this book.

Readable, thorough, yet concise. The only caveat is that it's a few years old, but overall I'm very happy with this product.

Aust as a student but why rip off college students. What a joke on the price of a new book.

Lots of good information, yet requires quite a bit of concentration to get through it.

Had to order it for class. A very thick read, but very informative and written very well.

Thorough and reliable. This will be my handbook until they publish the next edition!

This is an excellent book that should be on every teacher's and administrator's desk in the state of California. It gives a complete overview of the structure that connects the different levels of the CA School law.
