Take Charge Product Management: Time-Tested Tips, Tactics, And Tools For The New Or Improved Product Manager

Synopsis

If you're looking for an effective and proven approach to product management - one that recognizes that the majority of product managers enter the field with little or no training and must learn through trial and error - this is the book for you. Take Charge Product Management guides you step-by-step along the product management path with tips, tactics, and tools to make you and your products more successful. Whether you're a new or experienced product manager, or a seasoned executive leading a team of product managers, this hands-on guide arms you with best practices to optimize your time and effectiveness and increase your value.

Customer Reviews

Excellent book for beginners as well as experts in Product Management. The concepts on how to create product strategy and roadmap is very well articulated. I started and finished this book in 2 days - easy to read. For folks already in PM, this book would be a refresher to sharpen your skills.

Great book for product managers new and old. This second edition has improved graphics as well. Much better on Kindle than the first edition.
