Arrowed (Arrowed Series Book 1)

Synopsis

“The name for the act was fitting. It definitely felt like I had been struck by Cupid’s arrow. The mystical bond that now tied me to her was strong and irrefutable: I was hers forever now. And I didn’t even know her name. Arrows are magical phenomena binding a wolf shifter to their soul mate. Already dealing with the attempted murder of his mother, increased pressures to become alpha, and the escape of a violent ex-pack member, Arrowing is the last thing on Noah’s mind. That is, until he Arrows on Sophia Rose, who with one look alters his life completely. Now on top of everything, he faces the challenge of pursuing a human who knows nothing of his world or the bond their souls share. “I knew from the moment I saw Noah that he had the potential to rock my world. I just never imagined that it would happen like this: breaking down the very foundation of things I thought I knew to be true. At first, moving to a small Montana town to live with her estranged father seems like Sophia Rose’s best chance at a quiet normal life. However, after a verbal altercation in the park with a handsome stranger, Sophia finds herself taken down a path of seduction and secrets- pulled into a world that threatens the idea of the calm life she thought she needed.

Customer Reviews

Arrowed is a lovely paranormal romance/new adult read involving wolf-shifter, Noah, and a young woman, Sophia, who make a soul connection (arrow) during a chance encounter in a park one day. Noah automatically knows what the arrow means for him, as he knows Sophia to be his soul mate; but she is human and he's unsure if she would accept him and his pack. Sophia is new to their Montana town and trying to be positive about her new situation despite recently losing her mother. Sophia is drawn to Noah, and her world is rocked when she eventually learns about who he is. While their relationship is progressing, a dangerous situation is unfolding for Noah and his pack. Can Noah and Sophia handle this danger, and what will it mean for their new relationship? I am absolutely smitten with this book! PNR and YA/New Adult are two of my favorite genres, and Ms. Murphy has combined it excellently. I was completely engaged and could not put the book down (I literally forced myself not to finish the last four chapters last night so I could be present for my family :). To me, it had the right amounts of action, humor, emotions, romance. I loved Sophia's sarcasm, and her conversations with Noah actually sounded witty and realistic. Noah is wow; the definition of swoon-worthy book boyfriend! I am saddened (but not surprised), that the book ends on a cliffhanger. And it is one that brings anxiety, as some big information is revealed to Sophia, and there's no telling how she will handle it. Also, there are people now involved in the threat to Noah's pack that can possibly threaten the future of Sophia and Noah's relationship which cannot happen! I am already too emotionally invested in their future (marriage, babies/pups, horseback rides into the sunset!!!!). So yeah, definitely a must read book in my opinion and definitely a series I will be stalking following.

It's a really cute and sweet romance, I read it all on the same day 'cause I simply couldn't put it down! instead of the usual overconfident male we usually see in this sort of "werewolf mate" books, we find a sweet and insecure guy who is desperate to win his mate while their relationship slowly develops, I absolutely recommend it! (not my first language, sorry for any mistakes)

I can't wait for the next book.

Was a really good read. Just wish the battle with the ripped could of been in this book. Looking forward to the 2nd book.

Overall I enjoyed the book as a fun read but it ends mid conversation between the main characters. It is the oddest ending. Not sure I will read the next one as it only needed to be 1 book.

Enjoyed the story, but there were some grammatical errors. Also, the story ends rather abruptly

Was a good rea

I was brought here by fan fiction so I was already familiar with parts of the book. I did like the story and will continue to read the series.
