Dr. Sharnnia Artis' Foundation for Extraordinaire was established in high school, where she graduated with a 4.2 GPA and received over \$100,000 in scholarships. She attended Virginia Tech where she earned three degrees in Industrial and Systems Engineering. Dr. Artis is an engineer living in Boston, Massachusetts.

The Teen's Guide to High School Success written by Dr. Sharnnia Artis, is an excellent resource

guide for any teenager preparing for college. Dr. Artis captures her audience by sharing her intimate experiences on her journey through high school to college. By utilizing the strategies and resources outlined in this book, teenagers will be able to finish high school at the top of their class, have an abundance of scholarship funds, attend the University of their choice and lastly, graduate debt free. The Teen's Guide to High School Success accomplishes its goal by providing a vivid time line of action items to guide students on a path of achievement, starting with the first year of high school continuing through graduation day. This book not only motivates teens to complete high school, but illustrates how to graduate focused and prepared for success at the next level.

Moving from Ordinary to Extraordinary is an empowering read! Dr. Artis does an excellent job providing young readers with the tools to help them be successful in their educational pursuits. This is a must have for teens transitioning from middle school into high school and beyond. Dr. Artis has provided a natural balance between methods and personal stories from her own journey. An added benefit is that the themes and methods, taught by Dr. Artis, are useful for adult readers as well. I found myself not only being motivated, but empowered to be more organized about the goals that I pursue. I've already started to recommend this book to parents, educators and students. This is an excellent resource to help prepare students for college as well as other areas of life. Allen Paul Weaver III Author, Transition: Breaking Through the Barriers[...]

This is an awesome resource for any parent, aunt, uncle, niece, nephew, grandparent and anyone who wants to help a child get into college. Not only does the author discuss scholarship opportunities, Dr. Artis also provides step by step instructions for students from 9th-12th grade. The author discusses the importance of maintaining good grades, developing study skills and using school guidance counselors as a resource (for information on college tours and scholarships). Getting ready for college is a process that cannot be taken lightly. Stop what you're doing and order this book for yourself, your family, your friends, your church members and keep an extra copy on hand just in case you think of someone else who needs help preparing for college!!

If there was ever a resource worth pushing for young people that desire information about how to become high achievers, this is it. From my experience, what holds back many students from reaching their full potential is a lack of practical information about the steps to take in order to get there. Dr. Artis manages to provide lessons that many individuals that end up being successful must learn along their journey. This book is great for those that are well on their way to achieving their

dreams and is a must have for those that need that extra push to be all they can be. I highly recommend it

I really recommend this book for teens. This book is excellent for teens who are preparing for high school and are in high school. It gives them the knowledge they need to know to be successful. It also prepares them for college and how to get scholarships. I really appreciate Dr. Artis putting this book out it is a great tool for our children's future.
