Great book lots of fun songs

I am continuing to love this series of books and cd's. If you are a beginner to a professional musician, these are nice to have when your band is not around. You can learn the music easily enough from the tab and the 'slowdowner' (to nail the harder parts of the songs). Learn the songs, press play and enjoy playing with the full backup band. This one isn;t quite what I would call 'Haevy Metal', but it has some good fun songs to play that will satisfy players of any skill level. I recommend this book and this series to anyone who loves playing good music but doesn;t always have buddies to play with.

love it

Tried real hard to learn UFO Lights out by myself but going nowhere until I found this book. There are so many rock & metal classics in there that it is well worth the price of the book. I listened to the CD while driving and it is awesome.

Item received just as described, Fast shipping, Thank you.
