# Rough Justice: The DC Comics Sketches Of Alex Ross (Pantheon Graphic Novels)

## Synopsis

Alex Ross opens his private sketchbooks to reveal his astonishing pencil and ink drawings of DC Comics characters, nearly all of them appearing in print here for the first time. Thousands of fans from around the world have thrilled to Alex's fully rendered photo-realistic painting of their favorite heroes, but as they may not realize, all of those works start as pencil on paper, and the origins of the finished images are rarely seen. Until now. From deleted scenes and altered panels for the epic Kingdom Come saga to proposals for revamping such classic properties as Batgirl, Captain Marvel, and an imagined son of Batman named Batboy, to unused alternate comic book cover ideas for the monthly Superman and Batman comics of 2008-2009, there is much to surprise and delight anyone who thought they already know all of Alex's DC Comics work. Illuminating everything is Alex's own commentary, written expressly for this book, explaining his thought processes and stylistic approaches for the various riffs and reimaginings of characters we thought we knew everything about but whose possibilities we didn't fully understand. As a record of a pivotal era in comics history, *Rough Justice* is a must for Alex's legion of fans, as well as anyone interested in masterly comic book imagination and illustration.

## Book Information

Series: Pantheon Graphic Novels

Hardcover: 224 pages

Publisher: Pantheon; First Edition edition (March 30, 2010)

Language: English

ISBN-10: 0375714901

ISBN-13: 978-0375714900

Product Dimensions: 8.8 x 1.2 x 11.3 inches

Shipping Weight: 2.6 pounds (View shipping rates and policies)

Average Customer Review: 4.7 out of 5 stars 53 customer reviews

## Customer Reviews

Ross's ultrarealistic, painted renditions of iconic superheroes have made him a superstar of the comic-book world. In this selection from his sketchbooks, his legions of fans can view some of the bases of his finished works. The drawings include layouts for published and rejected covers as well

as story pages for such DC mainstays as Superman and Batman and Ross's grandiose Kingdom Come series. There are also sketches for noncomics work—among them, the ALA posters showing DC's iconic heroes enjoying books in outer space, in the Batcave, and on Paradise Island—and character designs, including suggested revampings of Captain Marvel and Batman that didn't make it past the proposal stage. These pencil and occasionally ink renderings possess less elegance but more dynamism than the glossy end products, and they accentuate Ross's powerful compositions. Ross provides commentary for the drawings, explaining his conceptual intentions. Edited and designed by Chip Kidd—the volume opens the curtain on Ross's creative process, revealing the sinews that underlie his acclaimed paintings.

--Gordon Flagg

For any artists wanting to break into comics, *Rough Justice* is a visual treasure trove to guide them, as surely as any by Da Vinci or Michelangelo. But more important, it's a volume that gives comics fans a rare opportunity to celebrate a top artist in action. Alex Ross is a master shaper of superhero worlds. • denofgeek.com

I feel like I need to write a lot to tell you how great this book is. I haven't even actually read the book *Justice* (of which this is something of a "making of" book). However no matter how much I say it can't convey how awesome this man's talent is. Even his rough sketches (which there are plenty of) have more life and character than pictures I work on for a long time. He might just be the comic book equivalent of Norman Rockwell. He's that good.

Alex Ross is an amazing artist and if you are a fan, you need this book. One of my favorites.

I bought this as a present for a family member who is obsessed with comic books and superheroes, as well as an art graduate and current art teacher. I spent roughly three years searching for something like this and finally found it! The description of the item and preview doesn't do it justice. It is just absolutely perfect and the sketches are amazing. It's like a look into not only the superhero and comic book world, but a look into the behind the scenes process of developing the characters along the way.

Any comic book art lover would find this book fascinating but it is an absolute must for Alex Ross fanatics! To peek inside the process for his artwork is an amazing experience. This book is full of

gorgeous drawings and preliminary designs featuring all the DC Comics heavyweights.

What can I possibly say about Alex Ross's artwork that hasn't already been said. The man is truly a master of his craft and seeing his sketches prior to being painted just makes me respect and appreciate his work that much more!

I am a huge Alex Ross fan. And its nice to see his process and the different stages of his art as it unfolds. Even his sketches are works of art.

Full of amazing sketches and unpublished art. Any fan of the medium would love this book. All of the thoughts that go into Alex Ross' covers are presented here.

Glad to have it in my collection. Paintings are beautiful and the line art is clear. A little bit of letting one know what its like to work for the majors and the politics involved.
