Chemtrails, HAARP, And The Full Spectrum Dominance Of Planet Earth

Synopsis

We are entering a Space Age, but not the kind President Kennedy originally envisioned. This Space Age is replacing resource wars and redefines planet earth as a "battlespace" in accordance with the military doctrine of "Full-Spectrum Dominance." This book examines how chemtrails and ionospheric heaters like the High-frequency Active Auroral Research Project (HAARP) in Alaska service a full-spectrum dominance. This "Revolution in Military Affairs" needs an atmospheric medium to assure wireless access to the bodies and brains of anyone on Earth; from heat-seeking missiles to a form of mind control. How sinister are these technologies? Are we being prepared for a "global village" lockdown? The recent release of NSA records have reminded Americans that "eyes in the sky" are tracking us as supercomputers record the phone calls, e-mails, internet posts, and even the brain frequencies of millions. Elana M. Freeland's startling book sifts through the confusion surrounding chemtrails-versus-contrails and how extreme weather is being "geo-engineered" to enrich disaster capitalists and intimidate nations. A deconstruction of Bernard J. Eastlund's HAARP patent points to other covert agendas, such as a global Smart Grid infrastructure that enables access to every body and brain on Earth, a "Transhumanist" future that erases lines between human and machine, and Nanobiological hybrids armed with microprocessors that infest and harm human bodies.

E. M. Freeland has worked as a ghostwriter for two decades and has edited books exposing the

relationship between electromagnetics ("non-lethals") and neuroscience and remote mind control. She is the author of the Sub Rosa America & The Fall of the New Atlantis series, a fictional platform for a history of the United States since John F. Kennedy's assassination to the present and beyond. She is editor of Paranoia magazine. Her double major in college was creative writing and biology, and she obtained a Master of Arts from St. John's College in Santa Fe, New Mexico. She lives in Olympia, Washington.

This is one of the most comprehensive studies on the subject of geoengineering, all the various components of the overwhelming issues of weather manipulation and the social, medical, and political ramifications of the silent war against all life on earth. Knowledge is power. This is a must read for those that care about the quality of life on planet earth for our future generations.

BUY THIS BOOK!! You need to learn what the governments of the world are spraying into the ionosphere and the effects it is having on all living beings, including flora and fauna.

I sleepily opened this book to just look in it--and then was on page 20 and thoroughly fascinated. Author Freeland makes it easy to understand the frightening forces being used in these technologies and the color photos of the Morgellon's disease passed by these chemtrails make them real. Her footnotes document every statement's source, in many cases from research by our government itself. I also like that Freeland gives answers on how people can protect themselves from these dangers in our homes and foods. So many experts who reveal dangers don't include a practical remediation approach or the positive elements that Freeland provides her readers.

The book is a bit technical. It is well documented. It is amazing that Telsa is ultimately responsible for Harrp. The lights or glows before earthquakes has been talked about in other books. Chemtrails has to be true. Thinking about all the illness that we have today. I am in a remote area at 7,000 feet. In the winter I see contrails/chemtrails in the winter months. At times there will 2 or 3 jets at a time in the air. The contrails, chemtrails last for all day, Then there are military planes flying over. I recommend the book. It is a wealth of information.

If you really want to know the truth then read this book!

Confirmed my suspicions regarding the US governments agenda.

...but I didn't really know much about them. I decided to do some serious research. This book not only provided me with everything I needed to know about chemtrails and HAARP, it also gave me links to many other sources of information on those subjects. About 1/3 of the way into the book, I was no longer a skeptic. That was where I read the patent for HAARP. So I would recommend this book for everyone.

Wow - everyone needs to read this book - ! Eye-opening and thoroughly researched and documented, this book will have you wondering which rabbit hole you fell down...it is certainly a wake-up call for our species and for our planet.
