Love this book! I have a lot of vegan cookbooks, but Mark's are my favorites. Just got this cookbook and had a hard time deciding which soup to try first. Tonight I made the "un-chicken noodle soup" for my boys, who are not vegan. The 9 year old declared it "the best soup ever" and the 13 year old boy actually thanked me "for preparing the delicious dinner". High compliments from these two!

I find that eating vegan is rough to do on the fly. I often want to eat quickly and with very little prep. This book offers a way to do just that. Chop a few things, add a few things, cook it through. How can you lose? The recipes are very well rounded with the different flavors that I often find that online

recipes lack. I have made 5 or 6 of the soups out of this and found that Mark offers alternatives if you don't have the ingredients exactly, and found that substitutions are dead easy for my own creativity. I like very much. I'd buy it again! I look forward to winter and the soup eating frenzy that always follows! wonder if he has a party foods book?! :) On to find it!

Any book with Mark Reinfeld as an author will have healthy, FLAVORFUL recipes. Its nearly impossible to believe you can create such fantastic meals in about 30 minutes. My top 2 favorite recipes from this cookbook (I have all of his cookbooks) are African Peanut Soup and Ethiopian Stew. Wow. you can make them super hot or rather mildly spiced like I did. Both are outstanding. I have never tried a recipe that I didn't think was delicious and special. It's easy to eat in a healthy way with this as a guide.

WONDERFUL! The soups are delicious and nourishing. Take the time to read the "how to use this book" section it will help. I am a working mom with a working hubby three kids and two dogs. I love that these recipes work and work within 30 minutes. We are basically vegetarians (we just cannot give up eggs) but giving up dairy has cut down on sugar intake (12 grams in 8 oz of skim milk) and empty calories plus you just feel better. The use of ground nuts to thicken soups is just genius. The African peanut soup recipe alone is worth the price of this book.

I bought this for a vegan guy for his birthday [my cousin] and he finds it easy to follow and very applicable. His wife isn't vegan but she loves when he makes soups from this book. He brought me over one of the soups that was a tomato something- or- other and it was delicious!

Every single soup or stew that I've tried has been excellent - even ones that I thought had interesting combination of ingredients (like not interesting in a good way :)) . Alas, though, I have started my soups way before the 30 minute mark as I like my soups/stews flavors' to meld. Definitely worth adding to your cache of books whether or not you are vegan.

Love this book! Many really good recipes that are very tasty and easy to prepare. Have made at least 10 or more with excellent results. Ordered several of his other books!

This has become one of my all-time favorite cookbooks! Not only are the recipes delicious, I love knowing that everything that goes into the pot is healthy and nutritious. Everything I've made has

been so flavorful, yet the recipes are super simple. I especially love the Cleansing Burdock Soup with Ginger and Dandelion Greens. A great soup when you're feeling under the weather. Every time I have a bowl of soup from this cookbook, I feel completely nourished! A must have!!
